Security Plan for Restricted-Use Data

UNC SRW

- **This is the primary compute platform for use of the Restricted-Use Add Health data.**
- **Wave VI data (projected dissemination late 2025) will be available only on the SRW.**

New contracts will use UNC's SRW for their Security Plan.

Renewing contracts are required to switch to the SRW from their previously approved storage device.

- This includes Remote Compute Server, External Hard Drive, Stand-alone Computer, File Server.
- This applies to both Restricted-Use contracts and Romantic Pairs contracts.

Forms for the SRW Security Plan

- The forms are available for download from the CPC Data Portal.
- Use this link: Find Security Plan forms here
- Scroll down the page until you see "Forms."
- Note that the forms are provided in a zipped file.
