

Application Instructions for the Add Health FAA Aircraft Noise Measures Data

Users must submit a Data Analysis Plan (DAP) via email to the FAA for approval before being granted access to the data. The DAP should include a brief description of the intended use of the data.

The email should be sent to David A. Senzig (David.A.Senzig@faa.gov). Be sure to CC Add Health Contracts (Addhealth_contracts@unc.edu). In the subject line, enter **“For your review: DAP to use the Add Health FAA noise data”**. In the email body, request that the FAA’s reply be cc’d to Addhealth_contracts@unc.edu. Attach your completed DAP to the email.

Once Add Health receives the FAA’s approval, the authorized Data User will be granted access.
